## CLINICAL EXPERIENCE

---

- 07/2019-06/2020 **Clinical Psychology Postdoctoral Fellow**  
*Saint Elizabeths Hospital, Washington, D.C.*
- Unit responsibilities: Member of treatment team on women's pre-trial admissions unit. Maintained caseload of 6-8 individuals in care and met with individuals for brief therapeutic interactions and competency restoration. Participated in daily rounds and treatment plan meetings with multidisciplinary team, co-facilitated Mock Trial group, completed initial clinical interviews with new admissions, implemented behavioral interventions, completed regular documentation, and administered neuropsychological screening measures and produced written reports of the results.
  - Intervention responsibilities: Maintained caseload of 2 individual therapy clients per week for 50 minute sessions. Therapy approached using cognitive-behavioral, interpersonal, and problem-solving interventions. Primary treatment modality was CBT for psychosis. Attended weekly supervision.  
*Supervisors*: Richard Gontang, Ph.D., Jessica Eddins, Psy.D., Wendy Olson, Ph.D., Holly Casazza, Psy.D., Jonathan Dugdill, D.Clin.Psych.
- 07/2018-06/2019 **Predoctoral Psychology Intern**  
*Saint Elizabeths Hospital, Washington, D.C.*
- Unit responsibilities: Member of treatment team on short-term civil admissions unit and long-term geriatric unit. Met with 3 individuals in care daily, participated in daily rounds and individual treatment plan meetings, facilitated relaxation group in the unit milieu, completed initial clinical interviews with new admissions, implemented behavioral interventions, completed monthly documentation, and administered neuropsychological screening measures and produced written reports of the results
  - Intervention responsibilities: Maintained caseload of 3 individual therapy clients per week for 50 minute sessions. Therapy cases included an individual transitioning into the community from the hospital, a forensic outpatient, and a civilly committed inpatient.

Therapeutic approaches included cognitive-behavioral, interpersonal, and problem-solving interventions. Co-facilitated Coping Skills and Acceptance and Commitment Therapy groups. Attended weekly group supervision and group therapy didactics.

- **Assessment responsibilities:** Wrote integrated reports for individuals in care. Caseload included psychodiagnostic evaluations, cognitive and adaptive functioning evaluations, and violence risk assessments. Integrated reports included cognitive, personality, achievement, and adaptive functioning measures. Also administered measures of PTSD, effort, and malingering. Measures included the WRAT-4, WAIS-IV, TOMM, PAI, Vineland, M-FAST, RBANS, and TOPF. Reports incorporated recommendations for diagnosis, treatment, and outpatient placement. Communicated the results to the individual's treatment team. Participated in weekly supervision meetings that addressed a differential diagnoses, instrument selection, and order administration based on each client's needs.
- **Positive Behavior Support Team:** Tracked instances of target behavior and use of staff interventions for an individual with a positive behavioral intervention plan. Provided monthly report to treatment team. Trained direct care staff in use of collaborative problem solving. Facilitated creation of an initial behavioral intervention to increase an individual's engagement with peers and clinical staff.
